

This is our business

aCon is fully focusing on the postal sector. Our goal is to be number 1 supplier of advanced Postal self-service terminals at any time. Feel free to investigate our web page for further information or call us if you have any questions.

New franking label printer

aCon is developing a new franking label printer for use in small and medium-sized companies. We will release further information shortly.

aCon Self Post Unit

TNT Post has chosen aCon A/S for development and implementation of a pilot test with five SPU units. The pilot started in the first quarter of 2008 and will run for six months.

The following products are implemented in the TNT SPU:

- Measure and weigh letters and parcels
- Send letters - as standard or priority letters or as registered
- For domestic and international destinations
- Send parcels - print address labels, dispatch notes and custom declarations for domestic and international destinations
- Purchase stamps - self-adhesive postage labels for any denomination
- Pay by debit card or electronic purse (chip)
- Print receipts and proof-of-posting certificate

On this page you will find examples of our printing quality and design possibilities. Of course, the labels, stamps and receipts can be designed and customized to fit your requirements. The examples below are taken from the TNT Post project.

Stamp info:

- 1500 stamps on each roll
- Self-adhesive
- Any denomination possible on stamps
- Custom designed motives
- With fluorescent liquid

Stamp:

Priority Stamp:

Barcode Label:

Parcel label info:

- 950 barcode labels on each roll
- Self-adhesive
- Necessary addressee and sender details filled in through the GUI
- EDI dispatched by the postal terminal
- Barcode label generated from central server
